

Free Line 40 - *On-cabinet element*

Feathery-flexible with plug connection

Free Line on-cabinet elements are fully upholstered, sound-absorbing at the core and adapted in design and function to the Free Line family of partitions and desk elements. With a selection of 17 fabric collections and an extraordinarily large number of structures and colour nuances, right through to quilted designs, Free Line offers the architect and planner almost unlimited design options. There are 10 fabric collections available as quilting fabric. The on-cabinet elements are available in heights 380, 530 and 680 mm. With each of 7 standard widths, up to 2000 mm and in addition also individually customised, can be responded to any cabinet or desk size and a variety of arrangements.
